

ROBERTS IS STILL AT JOHANNESBURG

Indications Are That Boers Will Defend City of Pretoria.

RUNDEL'S SEVERE LOSS

Gen. Warren Also Comes Very Near Falling Into a Deadly Ambush.

ALL WIRES TO PRETORIA CUT

London, June 2.—[Special Cablegram]—No word from General Roberts today. Great anxiety is felt at Lorenzo Marques. The British are meeting with some opposition at various points between the Vaal and Johannesburg. Pretoria is still in the hands of the federals.

London, June 2.—[Special Cablegram]—Gen. Roberts was still at Johannesburg yesterday. He reports from there under that date: "Gen. Colville reporting the arrival of the Highlanders at Helbron on May 29th states that he was opposed the whole way from Ventersburg. He had four officers wounded, eight men killed and thirty-two wounded. Rundle telegraphs his casualties near Senekal Tuesday as thirty killed and one hundred and fifty wounded."

Cape Town, June 1.—[Special Cablegram]—Further details of Tuesday's ambush at Foberspruit, Grigqual and the west show that Warren with seven hundred men was surrounded by one thousand rebels who were finally repulsed leaving a number of dead on the field. The British loss was fifteen killed, thirty wounded.

Winburg, May 30.—[Special Cablegram]—Today the Boers under a white flag requested medical attendance for commandant Villiers who was seriously hurt in yesterday's engagement. Gen. Rundle acquiesced and ordered the wounded Boers to be removed to the British hospital, promising to allow them to return when recovered. The Boers admit that the British artillery inflicted fifty casualties.

Lorenzo Marques, June 2.—[Special Cablegram]—It is officially reported by the Boers that communications with the Main British army has been cut near Vaal river.

BOERS NOT READY TO GIVE UP YET

Withdrawal from Pretoria But Will Make a Desperate Stand

London, June 2.—A belated dispatch from Kroonstad, dated Tuesday, May 29, reports that President Kruger is very ill and adds that the stationmaster at Kroonstad says the president is dead. This, however, was not credited.

London is still awaiting the news that Lord Roberts' army has occupied Pretoria, notwithstanding that event has been considerably celebrated already. It is supposed that Gens. French and Hamilton are advancing to-day on Pretoria. Dispatches from the front generally agree that there will be no defense of the town. The impression is growing, however, that there will be further fighting in the Transvaal before the state is pacified. It is believed that President Kruger has gone to Lydenburg to reorganize the shattered commandos, and will immediately draw around him the burghers who are now resisting Gen. Buller's army in the region of Laingsnek. Meanwhile Gens. Rundle and Brabant are still having trouble at the hands of the Free State burghers. From Douglas, Cape Colony, sixty miles southwest of Kimberley, comes the news that a small British force has been surprised by Dutchmen, and that the commanding officer and sixteen British soldiers were killed. Gen. Baden-Powell and Col. Mahon are thought to be marching across the Transvaal, by way of Zeerust and Lichtenburg, with the intention of joining the British forces at some point west of Pretoria. Lord Roberts is reported to have issued a proclamation guaranteeing immunity to non-leaders, who surrender their arms, and take an oath not to fight again.

Boer Position in Donbt. London, June 2, 3:45 a. m.—Lord Roberts continues silent regarding Pretoria, probably because he cannot wire of events from his own knowledge. Lorenzo Marques, where all the news from the Boer side is handled, cables that communication with Pretoria is now suspended. Some messages by courier have reached Lorenzo Marques, but none of later date than Wednesday. These

LA FOLLETTE FOR VICE PRESIDENT

LATEST NAME FOR SECOND PLACE ON M'KINLEY TICKET.

The Suggestion Comes From Minnesota and is Seriously Considered—"Bob" Would be a Good Man to Put on Bryan's Trail Through the Campaign.

Madison, Wis., June 2.—Ex-Congressman R. M. LaFollette for Vice President. This is the latest suggestion, and one that is meeting with considerable favor among a number of leading Wisconsin republicans. Mr. LaFollette is now making a third campaign for the republican nomination for governor of Wisconsin, and he has long been a thorn in the flesh of the older element of the party in the state. This element, it is believed, would be glad to see him sidetracked into the vice-presidency for four years.

ATHLETIC EVENT IN CHICAGO TODAY

Athletes of Seventeen Colleges Will Contest for Supremacy—Wisconsin One of Four Favorites.

Chicago, June 2.—College men, speedy of foot and strong of arm, will meet in the annual games of the Western Intercollegiate Athletic association this afternoon at the Ravenswood Athletic field. Nineteen universities and colleges will be represented by the pick of their athletic talent, and after a final wedding 170 men will remain to take part in the greatest of Western meets. From the far West comes the University of California athletes, then as the circle narrows around Chicago those who will answer the roll call in the different events will be the athletes from Wisconsin, Michigan, Minnesota, Northwestern, Notre Dame, Lake Forest, Knox, Yankton, South Dakota, Nebraska, Purdue, University of Indiana, Drake, Carleton and Oberlin.

The different teams will compete in sixteen events, including all the regular track and field events. That the competition will be keen is certain. Probably never before were the bigger teams more closely bunched in the estimation of the critics than is the case this year. Those who are favored the most are Michigan, California, Wisconsin and Chicago. It is pretty certain that one of these four will carry away the championship banner.

Madison, June 2.—Coach Kirkpatrick and the University track team left for Chicago yesterday afternoon to take part in the Western intercollegiate contests today. The Badgers will make their headquarters at the Lexington hotel. The Wisconsin team which includes sixteen good athletes, hopes to win first place and the probability is that it will come close to doing so. The boys were given an encouraging send off. Coach Kirkpatrick has been re-elected for another year at a salary of \$1,000.

LOFTY AMBITION OF CARTER HARRISON

He Is Said to Want the Vice Presidential Nomination With Bryan On Democratic Ticket.

Chicago, June 1.—[Special Telegram]—The reason why Carter Harrison declines the proffered nomination for governor on the democratic ticket is because he is anxious to secure the vice-presidential nomination with Bryan, according to the mayor's close friends. When asked to confirm this rumor today he appointed a later time for an interview.

BOER ENVOYS TO SEE BRYAN

Would Go to Lincoln to Find What Policy Would be if Elected

Lincoln, Neb., June 2.—Gov. Poynter has received a message from Washington saying that the Boer envoys will visit Lincoln on their Western trip. As soon as the expected arrival was made known, a citizens' committee immediately set to work on arrangements for receiving the envoys. It is understood that the Boers are coming to Lincoln solely for the purpose of holding a personal interview with W. J. Bryan in regard to the Boer national affairs. They wish to ascertain from Mr. Bryan what his actions would be as regards the national policy toward the burghers should he be elected president. Mr. Bryan refuses to discuss the expected visit, and conference.

MILWAUKEE READY FOR CLUB WOMEN

SESSION OPENS MONDAY NIGHT WITH FINE PROSPECTS.

An Enormous Crowd is Expected and Every Room in the Best Hotels Has Been Taken—Brilliant Reception at the Plankinton House—Premium for Bonds.

Milwaukee, June 2.—Next week Milwaukee will entertain a host of club women from all over the country. The biennial meeting of the General Federation of Women's clubs, which opens Monday evening, will, from all appearances, be the largest in attendance of any ever held.

So great has been the calls for rooms from delegates and others that a week ago the hotels of the city displayed a sign warning customers to steer clear of Milwaukee during the week of June 4-10, or not expect anything in the way of accommodations if they came. Every room in the hotels that can possibly be spared has been engaged, and late comers will have to depend on private boarding houses or friendly hospitality for accommodation.

Arrangements All Complete The arrangements for the convention have been completed, and nothing now remains but to receive the club women and their friends. The local biennial board, which has been engaged in the preparations for a year, held its final meeting yesterday. Very little business was done, for the reason that every thing had been attended to before.

Convention guests have already begun to make their appearance at the hotels. This morning the general officers of the federation are expected, and the final details of preliminary work will be completed. The reception at the Plankinton House, which will open the week, will be one of the most brilliant ever held in Milwaukee. The receiving party will consist of the officers of the state federation, headed by Mrs. Neville, the president. Notice has been received that the New York women's train will leave New York City this evening at 6 o'clock. The delegation is headed by Mrs. William Tod Heilmuth, the nominee of the eastern clubs for the presidency of the federation.

Bonds Bring a Premium City officials are very much pleased over the sale today of an issue of \$50,000 of fire department bonds, which sold at a premium of \$2,000, bringing the interest down to 3.03 per cent. The bonds were taken by the Citizens' Loan and Trust Company of this city. The Milwaukee Street Railway Company today advanced the wages of its motormen and conductors 1 cent an hour. This will give first year men 17 cents, second year 18 cents, third year 19 cents, and four-year men 20 cents an hour. This action on the part of the company will affect about 600 employees, and comes as a surprise to the men.

COST OF SPANISH WAR

Treasury Books Show Some \$385,000,000 Withdrawn From the Spanish and Philippine Wars.

Washington, D. C., June 2.—No official statement has been prepared of the cost of the Spanish war, but W. F. MacLennan, chief of the division of book-keeping and warrants of the treasury department, has a memorandum based on the money advanced to various disbursing officers, which shows that \$385,000,000 has been withdrawn from the public treasury to defray expenses growing out of the Spanish and Philippine wars, as well as the expenses incident to preparing for hostilities. This covers the national defense fund, the expenses of the Paris commission and the \$20,000,000 paid to Spain for the Philippines.

WIN VICTORY FOR THE BIRDS

Feather Dealers and Milliners Surrender to Audubon Societies

Chicago, June 2.—The milliners of the United States, it is reported, have surrendered to the Audubon societies. Word was received in Chicago from New York yesterday by Ruthven Deane, president of the Illinois Audubon society, that the Merchant Milliners' association, which he said controls more than 90 per cent of the millinery trade of the country, had set out a white flag and was willing to surrender to the aggressive bird protectors provided a few conditions named were granted.

If the directors of the Illinois society agree with those of the other organizations to grant what the milliners desire, it will be impossible after a stipulated time has elapsed for any American woman to buy any American bird or American egret to stick in her hat. The Chicago directors of the Audubon society were jubilant over the surrender of the feather and dead bird dealers. Three years ago, the Audubonites say, the milliners laughed at the protective society as a fad that would last but a season.

The organization has been actively at work in all parts of the country since it was formed, and the members say that the milliners have now been compelled to sue for a mercy which they never showed the birds. THREE good second-hand buggies for sale cheap. F. A. Taylor & Co.

AIM TO DEFEAT LA FOLLETTE

Said to be the Object of Republican Conference in Milwaukee.

Milwaukee, Wis., June 2.—Gov. Scofield and Ira Bradford, candidate for the republican nomination for governor held a conference at the Hotel Pfister yesterday. It is reported that the governor is casting about in the hope of convincing some of the candidates that they cannot hope to prevent the nomination of LaFollette, and that the only way to head off the Madison man is to renominate the governor. Bradford's friends claim he would not enter into any alliance with Scofield. The general movement, however, is with the end in view of uniting if possible in opposition to LaFollette.

BUILDING TRADES STRIKE

All Kansas City Artisans Ordered Out Today by the Council

Kansas City, Mo., June 2.—A general strike of all the building trades in Kansas City, effective tomorrow morning, was ordered at a meeting last night of the Building Trades' council. Over 5,000 workmen will be involved.

ADJOURNMENT OF CONGRESS IN SIGHT

If There Are No Serious Hitches in Conference the End Will Come Next Wednesday.

Washington, June 2.—[Special Telegram]—In the senate next week the time will be devoted chiefly to agreeing to conference reports on the few appropriation bills that have not been adjusted between the two branches. If the senate secures liberal enough concessions from the house managers on the items in dispute there is reason to believe that an adjournment of congress may take place as early as Wednesday and not later than Saturday. The house will have nothing to do next week except to complete the appropriation bills and is ready to adjourn Wednesday.

ODD FELLOWS WILL MEET AT GREEN BAY

Gathering Promises to Eclipse All Others—Preparations For the Saengerfest June 22.

Green Bay, Wis., June 2.—J. L. Jorgensen, chairman of the local arrangement committee in charge of the session of the grand lodge of Odd Fellows, which convenes in this city next week, has just received word from the grand secretary that the gathering will be the largest ever held of the grand lodge in this state.

Preparations are being made to accommodate a large crowd which is expected to attend the Saengerfest, June 22, 23 and 24. The new concert hall just erected will seat 3,000 people. The three grand concerts will take place on Saturday afternoon and evening and on Sunday afternoon, the program consisting of mass choruses by over 500 singers, renditions by the several societies, solo singing and selections by the festival orchestra.

KID M'COY DEFEATS BONNER

Later's Seconds Give Up in Thirteenth Round

New York, June 2.—Kid McCoy last night hung another scalp in his belt by defeating Bonner in the thirteenth round. Bonner was game and fought valiantly, but McCoy kept away from his rushes and sent in rights and lefts until Bonner's seconds threw up the sponge.

In the eighth Bonner sent McCoy to the floor with a left swing on the face. In the ninth Kid had the big fellow in a bazy condition when the bell rang. In the tenth, eleventh and twelfth Bonner, by his gameness, kept from throwing up the game. In the twelfth McCoy sent him to his knees. Bonner rushed in the thirteenth desperately landing on chest. McCoy landed left on eye and right on body. Bonner tried to get back in the most plucky manner, but McCoy was all over him, and after a right on the body from the Kid, Bonner slipped to his knees and as he was unable to go on, the Pennsylvania's seconds threw up the sponge.

Four Europeans were killed and many wounded. The fate of the others is not known.

FOREIGN WARSHIPS AT TAKU

Russian Fleet of Nine Vessels Has 1100 Troops Aboard Shanghai, June 2.—Twenty-three warships are now at Taku—nine Russian, three British, three German, three French, two American, two Japanese and one Italian. In addition to their crews the Russians have on board their warships 11,000 troops from Port Arthur, with field equipment. Fourteen thousand Russian troops are held in readiness at Port Arthur.

Russian Army Significant

London, June 2.—The Vienna correspondent of the Daily Telegraph says: "An active exchange of dispatches is going forward among the great powers relative to China. The colossal superiority of Russia's representation at Taku is regarded as significant. The triple alliance advocates united action by Europe to protect common interests."

The Standard publishes the following from Tien Tsin, dated April 29: "As an example of the Chinese government's treatment of the 'Boxers' I give the text of a secret order sent to Gov. Yuan, in Shantung. 'In reply to the governor of Shantung, who reports that he has found it necessary to repress the patriotic "Boxer" society with a strong and heavy hand, we remark that it cannot be expected that such simple people can know that they have done anything amiss. If a strong hand is manifested will there be a permanent grudge against the governor? We assure the governor that if future trouble arises he himself must bear the consequences. Let the good people be dealt with in a merciful and generous way to the benefit of all.'" The Pekin correspondent of the Times, telegraphing Friday, says: "The government gave every facility for the arrival of the foreign guards. The streets were orderly. The Russians, as well as the French, were forbidden to land Wednesday, but the tsung-li-yamen has apologized, explaining the mistake."

TRUST ISSUE FOR CAMPAIGN MADE UP

Resolution in the House Yesterday Settles the Question for Republicans and Democrats.

Washington, June 2.—[Special Telegram]—Both the republicans and democrats are agreed that the trust issue for the campaign was made up by the action of the house in yesterday's resolution proposing a constitutional amendment. The former contend that effective regulation can only be accomplished through congress and only by enlargement of its powers. The legislation by states is conflicting. The democrats say the proposed amendment is bunk, that there is plenty of authority now. If the states favored the amendment it would take years to secure its adoption, and in the meanwhile the trusts would have everything to their liking.

## FRANCIS MURPHY UPHOLDS PRESIDENT

TEMPERANCE MAN WHO LECTURED IN JANESVILLE.

Speaks About the Canteen in Army Posts and Flays the Methodists for Criticizing the President—Action of the Church People Was Uncalled for Mr. Murphy Says.

Francis Murphy, the temperance advocate who held forth in Janesville for several weeks in sustaining the president in his attitude toward the canteen in army posts and flays the Methodists for criticizing him. Thousands of Americans who have knowledge of the fact that when the canteen is abolished long grog shops outside the posts bring about terribly immoral conditions among the soldiers, will agree with Mr. Murphy that the president has dealt with the question in a most practical manner. By permitting the canteen the president has done more for temperance than if he abolished it. Speaking of the criticism by the Methodist conference Mr. Murphy said:

"It was the most uncalled for, undignified and un-Christian action with any professedly Christian body, that I ever heard of," he said. "It was malicious and premeditated. President McKinley's life stands as an eloquent and convincing refutation of the contemptible charges directed against him. He is one of their own faith, a man whose life is an open book, and who throughout his long career has been known as a Christian and an earnest friend of temperance."

"The fact is, he is a much better friend of temperance than they. I have known him for over twenty years, and I know of the helping hand which he has given to the cause of temperance on many occasions. They thought to crucify him because of the attitude of his administration on the canteen question, when the fact is this rule makes much more for temperance than the coercive measures which they would enforce."

"Prohibition is un-American, un-Christian, and unscriptural, and has brought more temperance, more poverty, and moral degradation in its train than good. I do not speak without a knowledge of the subject, and I say it is a curse to the country rather than a benefit."

## TOBACCO MARKET REMAINS QUIET

Culton of Edgerton Reports the Sale of 500 Cases—Inquiry For Old Stock.

But little has occurred to chronicle as news in the tobacco business during the week. Matters are extremely quiet about the local markets. A few stray lots have been purchased from growers holding '99 crop but altogether it will pass as a dull week says The Wisconsin Tobacco Reporter.

Packers are receiving a good deal of inquiry for all stock and several out of town buyers are looking about the market, but no large transactions have reached us. C. L. Culton reports the sale of nearly 500 cases of '98 in several lots since last report.

The weather has been too dry to afford much opportunity to start the planting of the new crop so far. Growers are busy preparing their fields but will scarcely take chances in transplanting until soaking rains arrive. The plant beds also require constant watering.

The shipments out of storage reach but 325 cases to all points during the week. Since last report 925 cases of cigar leaf were exported from New York.

Given Last Evening at the Home of C. C. MacLean.

On the spacious lawn at the Milton avenue home of Mr. and Mrs. C. C. MacLean the ladies of the Presbyterian church held a lawn social which proved to be the first of the season. Ice cream and cake was served and from early till late the many tables were filled. At nine o'clock the ladies were obliged to send for more cream. The lawn was beautified with Japanese lanterns and a large headlight. The Y. M. C. A. band furnished music. The social was a success and the ladies in charge have good reason to feel proud of their undertaking.

## WOOD TALKS OF FRAUDS.

Critic of Plain Theft and Expects No More Scandals.

New York, June 2.—A dispatch to the World from Havana says: "Gen. Leonard Wood, military governor of Cuba, authorized the World correspondent to cable to the World the following statement from his relative to the frauds in the Cuban postal service and the general condition of the island: 'I firmly believe that, the irregularities in the Cuban postal service, which amount to plain theft only, are all that will be discovered. The postal service has not been under my jurisdiction. I learned of the frauds, instituted an inquiry, and took steps to secure the punishment of the men implicated. I have since inaugurated a thorough investigation into all the departments, and am confident that the condition of affairs of the postal service does not exist in any other branches. Of course there have been many rumors, inspired by the postal scandal, of fraudulent transactions in other departments—the customs service, the engineers' department, and the department of parks. I have every reason to believe that these departments have been conducted in a most business-like and honest manner. If there is one department I am sure of it is the customs-bureau. You can readily understand that men who have been in the habit of swindling the government under the Spanish regime do not take kindly to the introduction of the business methods inaugurated by the United States. I think that on the whole the entire public service of Cuba has been improved.'"

## Nervous Spells,

Neuralgia, headache, rush of blood to the head, numbness, an irritable temper, loss of appetite, sleepless nights, poor memory and a general run-down condition. There is no remedy so sure and safe as Dr. Miles' Nervine. From the very first dose its soothing and quieting influence can be felt. Nothing in the past has ever equaled it in power of building up weakened nerve tissues and giving strength to the tired body. The weary sufferer who has walked the floor at night with throbbing temples and bursting brain, will find restful sleep and sweet repose, and awake feeling strong and refreshed. Dr. Miles' Nervine searches out the weak parts wherever they may be hid and gives them new life and vigor.

"I used to suffer from terrible attacks of nervous and sick headache at least once a week, and it seemed that my head would split open. I became so weak that the least excitement would unstring my nerves and I would have spells when it seemed impossible to get my breath. I had to give up my millinery business and was on the very verge of the grave when I heard of Dr. Miles' Nervine and began taking it. The very first night I was able to sleep soundly and the next day I felt like a different person. I continued taking the remedy and now I attend to my customers without any headache or nervousness." Zurich, Kan., Jan. 31. I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

MRS. V. M. BOISVERT.

## Wine of Cardui

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it. They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

## EASILY PROVEN.

There is Not the Slightest Necessity for Leaving Janesville to Look for Proof.

The experience given below by this well-known citizen of Janesville is easily proven. The proof he offers for his convictions can safely be left with the reader. It is a difficult matter to describe an aching back or any of the ills caused by disordered kidneys. How to cure the trouble is of much more importance, and the most exacting resident of Janesville cannot ask for any better authority on this point than that given by Veteran A. F. Lee, of 51 Sharon St., carpenter, who says:

For twenty years it troubled me a great deal. Many days I could hardly keep at my work, and by rights should have staid at home and doctored. It was seldom that my back did not ache, and I have been completely laid up for three or four days at a stretch. When stooping or lifting sharp twinges penetrated the kidneys, the secretions from those organs were too frequent, and accompanied by pain. I used all kinds of remedies but none gave permanent relief. Obtaining Doan's Kidney Pills at the People's Drug Co., I took them, and after the first three or four doses a noticeable change was brought about. I improved steadily from then on and on completing the treatment I was in good condition and am now well."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

## THIS DAY IN HISTORY.

1773—John Randolph of Roanoke born in Virginia; died 1833.  
1816—John Godfrey Saxe, humorous poet, born in Highgate, Vt.; died 1887.  
1831—Paul Emile Littré, French philologist and historian, died at Paris; born 1801.  
1882—Giuseppe Garibaldi, Italian patriot and soldier, died in Capri; born in Nice 1807.  
Garibaldi's life was one of romantic adventure from beginning to end. First an Italian patriot and exile; then a warring liberator in South America, where he won a wife worthy to share his dangers and honors; next a volunteer warrior in Italy, rejected by the leaders, victory and defeat following until he once more, finally, was recalled to his native land to become, after long struggles, the arbiter of its destiny.  
1897—Cabinet crisis in Spain; ministers resigned.

## DISTRICT FOR WHITEHEAD

Broadhead Independent.—Hon. Robert LaFollette has many warm friends in Green county and the First congressional district. Certainly, we who in years past, have listened entranced to his eloquence are not going to disparage him or discountenance his ability. He has many good ideas, and can present them most forcibly. But it is not oratory only that is needed in the gubernatorial chair; it is moral stamina, a strength of will, which, while it lacks impetuosity, does not fail in endurance. Mr. LaFollette may not lack in these qualities; we are not writing to make comparisons which Mrs. Malaprop truly says are "odorous," but to say that before Mr. LaFollette's candidacy was announced, the First congressional district had endorsed as its nominee, a man who represents all the reforms that "Bob" ever urged; a man whose public life has shown that in spite of odds he can stand for the right, a man who has the interests of the people truly at heart as his career has evidenced, and a man who is so far outside of any political ring, that he has no hungry horde of office seekers, clamoring for him. It is too late now for Mr. LaFollette with all his ability, to enter the arena of the First District; with his nice sense of honor he should have spoken earlier or not spoken at all. Could he get an endorsement from the First District, of what value would it be now? Simply to turn the First District into ridicule. The men of this District know their own interests better. In union lies their strength; they have a candidate equal to any one; one who honors their choice; and they will give undivided support to J. M. Whitehead.

## ENUMERATORS CANNOT TELL

Do not embarrass the census enumerators by asking them questions. Washington dispatches say that in the instruction to enumerators the following sentences are found:

"If you are asked what is the population of your district or of any portion reply that you are forbidden by law to answer. All such requests, whether from newspapers, local officials or individuals, are to be referred to the director of the census."

The census law declares that an enumerator who communicates to any unauthorized person the information he gains in the performance of his duties is guilty of a misdemeanor and liable to a fine of not more than \$500. One reason for the law is that experience has shown that local officials often make serious errors. The work will require thirty days' time and will cost \$15,000,000.

Illinois farmers have organized "The Farmers Economic Union." Besides the social and educational features it will appoint agents who will have for their duties the securing of reduced rates on supplies needed by members of the organization, and as further objects will endeavor to secure legislation favorable to the farmer and decide upon ways and means of increasing the productivity of the soil. It is supposed to be the first and only farmers' union in existence.

A Chilton man kept dynamite in the house, and as the result six funerals were held today. There should be a law enacted to prevent such slaughter. If the owner of the explosives lives alone, and is willing to take the chances, well and good, but women and children certainly need protection against such a foolish practice.

The population of Indiana decreased by nearly 6,000 last year. It is thought, however, that a few good men who are willing to accept office can still be found in the state, so all is not lost.

The world wags the same, no matter where we may be. Press dispatches now announce that the Kaiser may "take his children to see the American circus in Berlin."

Gen. Gomez is back in Cuba, and if his uncle Samuel is wise, a sharp eye

will be kept on the old gentleman both day and night.

## McClure's Magazine for June

The June number of McClure's is particularly strong and varied in its contents, both as regards fiction and special articles. President Kruger of the South African republic is portrayed in an acute character-study by F. Edmund Garrett, who has had the advantage of personal contact with the remarkable Boer leader, and is thoroughly familiar with his past career and with the political history of the Boers. Excellent portraits of Kruger and his wife are included. J. Lincoln Steffens, of the New York Commercial Advertiser, relates some striking "incidents of conflict" between Governor Roosevelt and the party leaders, and considers whether his first term as governor has turned out to be a successful experiment. A fully illustrated article on the Cape Nome Gold Fields, by William J. Lampton, describes life in Nome City, which is "the largest of its age in the world," and gives the latest and exactest information available concerning the possibilities of this new gold region, one that is much richer than even the Klondike. "Experiments in Flying," by O. Chanute, is an account of the author's own flying-machines, one of which is so constructed as to maintain successfully a speed of seventeen miles an hour. The article is illustrated from photographs.

One of the most striking features of the number is a thrilling naval story of the Japanese-Chinese war by Adachi Kinoshita, who is almost the only existing Japanese writer whose literary reputation has been established by his work in the English language. How the "Hiei" ran the gauntlet of the Chinese squadron, how the valiant Yamaji fulfilled his dedication by his dying father to the service of the Emperor of Japan, all this is graphically and thrillingly told. The pictures are full of action and unusually effective. In addition to this, there are several other good short stories. There is also a true historical story by the Rev. C. T. Brady—the story of the greatest fight in the history of American privateers, Reid's great fight in the "General Armstrong" against the British. The S. S. McClure Co., New York.

## Postage in Switzerland.

In Switzerland ordinary letter postage is 2 cents. Many representations have been made the various cantons to have that charge reduced 1 cent. The privilege of postal franchise belonging to cantons by virtue of their office has always been a sore point with the newspapers, which, however, have protested against it in vain. Parcel post charges have been increased. The enormous income the postoffice department realizes from its transactions might readily admit of some reductions in rates, but the bureau seems to prefer to erect costly and often inconvenient buildings like the new central postoffice at Geneva.

## Senators Not All Beggars.

In contrast to the senatorial Croesuses are the poor men in the senate who have little more than the salary allotted to their position, a petty sum of \$5,000 per annum. In this category are Senators Allen, Nebraska; Bate, Tennessee; Berry, Arkansas; Beveridge, Indiana; Burrows, Michigan; Butler, North Carolina; Chilton, Texas; Clay, Georgia; Cockrell, Missouri; Cullop, Illinois; Deboe, Kentucky; Heitfeld, Idaho; Jones, Arkansas; Kenney, Delaware; Kyle, South Dakota; Lindsay, Kentucky; Vest, Missouri; Tillman, South Carolina; Shoop, Idaho; Pritchard, North Carolina; Mason, Illinois; Morgan, Alabama; Mallory, Florida; McCumber, North Dakota; and McBride, Oregon.

## Dr. Phillips Brooks.

Only one noted Protestant divine has been a bachelor. He was Phillips Brooks, who seemingly possessed every quality desirable in a model husband. The cause of his remaining single seems never to have been understood, even by those who were closest to him. In his student days and in his career as a clergyman he had many friendships with women, while his passionate fondness for children was remarked often.

## Small Denominations Colored.

In Turkey the unit of value is the piastre, which is divided into forty paras, while the para is divided into three aspes. As the piastre is only worth 4.4 cents, the para is worth a little more than a tenth of a cent, and an aspe is worth a trifle over one twenty-seventh of a cent. When an American in Turkey wants to feel rich, he goes forth and buys some 2,700 aspes, which he spends with lavish hand over the bargain counters of the Oriental bazaars.

## Arizona and Statehood.

Former Governor McCord of Arizona, who has been energetic in his endeavors to further Arizona's claim to statehood, states that he has decided to give up for the present, and advises the people of Arizona not to press the matter until congress gets through with Puerto Rico, Cuba and the Philippines.

## Rainbow Millinery.

A feature of the spring millinery, and a very pretty one, is the trimming of a straw hat with knots of ribbon. The hat should be yellow, pearl or straw color. The knots of ribbon should be in some of the "pastel" shades. Pastel green, palest of roses, or buff or cream look well together. For a little girl nothing could be prettier. Turquoise blue and beige ribbon look well together. The Pompadour combination of faint rose and pale blue is always charming.

## Beggars That Are Not Beggars.

An elocutionist in reciting Kipling's "Absent Minded Beggar," put tears into his voice when he came to the word "beggar," under the impression that it had the meaning of mendicant. Beggar is quite as likely to mean to Englishmen what "chap" means to us. Its use is often the reverse of uncomplimentary. "Oxford men are beggars to row," an Englishman will tell you, or very likely he will say "Americans are beggars to stand by their flag." The "absent minded beggar" is simply a man who forgets sordid considerations in his willingness to serve his country, and is therefore heroic.—Boston Transcript.

## Bird's Nest of Steel.

The Ornithological museum of Salothurn, Switzerland, has come into possession of a bird's nest which is extremely unique. It is a swallow's nest, about four inches broad, built entirely of steel watch springs. It was discovered by a workman in one of the big watch factories of that country, who last summer had often seen a swallow fly into the open workshop, pick up a bit of metal and fly off to a neighboring tree. After the young birds had flown away to warmer lands he climbed the tree and found to his astonishment that the nest was composed entirely of discarded watchsprings, but that it was nevertheless quite soft and light in weight.

At the depot a committee was present to receive the guests who after receiving a most hearty welcome were escorted to awaiting carriages and driven to the boat docks near the Fourth avenue bridge. At this point the Beloit ladies were received by many members of the society here. The excursionists from the Line City comprised the following:

## EASTMAN HIRED SPECIAL TRAIN

### WISHED TO SEE DYING SON IN CHICAGO.

Special Arrived in Janesville Last Evening Over the Milwaukee Road—Change of Engineers Took Place Here—Trip Was a Record Breaker.

In order to reach the bedside of his dying son before he expired Morton Eastman, a wealthy lumber merchant of Plattville, arrived in Janesville last evening on a special train over the Chicago, Milwaukee & St. Paul railroad. The special consisted of an engine and one coach. In the coach was Mr. Eastman and his other son. Mrs. Eastman was in Chicago at the bedside of her dying boy.

The trip to this city from Plattville was made at a record-breaking rate. At each station Mr. Eastman received by telegraph the condition of his son in Chicago. At this station a change of engine was made. Engineer E. P. Schlatter of this city was in charge of the iron steed out of this city.

The trip to Rockford was made in forty-eight minutes, which is about a mile a minute when one considers that seven stops are required for the crossings.

From Rockford the special had a clear track into Chicago. Whether or not the father arrived in Chicago in time to see his son alive is not known.

## DOGS RAISE HAVOC IN THE CEMETERIES

### Chase Gophers Into Their Holes and Then They Start to Mutilate the Graves.

Sexton Scott of Oak Hill cemetery says that dogs are raising havoc by burying lots in the cemetery. It is against the rules of the cemetery association to allow dogs on the grounds. Few people seem to realize this and each day bring along their favorite canine. In Oak Hill the grounds are fairly alive with gophers. As these little animals make themselves known the dogs take after them. When the gopher disappears the dog starts to dig about the hole into which the little animal has safely made his escape. In one year's time the amount of damage done in Oak Hill by dogs is more extensive than the public think. People are warned to leave their dogs home when visiting the cemetery.

## GRIFFIN GIVEN BASTILE SENTENCE

Hugh Miller was also before the court on the same old charge. He was given thirty days.

## CARNEGIE COMPANY DELAYING CONTRACT

### Michael Hayes and John Cullen Arrived Home Last Evening From Their Trip to New York.

Michael Hayes, member of the local contracting firm of Hayes Brothers, arrived in the city last evening from New York city, where he has been during the past few days looking over the ground that the Hayes Bros. are to soon excavate for the underground railroad. Mr. Hayes was accompanied by Contractor John Cullen of this city. Work on the road is at present hindered as the result of the great iron manufacturing firm of Andrew Carnegie being unable at present to furnish the needed iron work. The work when once taken in hand by Hayes Bros., will be rushed to completion by a large force of workmen. The section that they are to excavate will take a fortune to complete. The several cars of material shipped to New York by the Hayes Bros. from Chicago arrived on the scene without a mishap.

The New York Commercial and Financial World has the following in its last edition concerning the Hayes Brothers Company:

As an indication of the excellent judgment Mr. McDonald has displayed in his selection of sub-contractors, and as showing the skill, experience and general reliability of the concerns to whom the construction of sections of the tunnel have been so far awarded, we refer in this instance to the award to the Hayes Brothers Company of Janesville, Wis., of the contract for the part known as section six, extending from the center of Eighty-sixth street to the center of 104th street. This section will include stations at Broadway and Eighty-sixth street, Broadway and Ninety-sixth street and Broadway and 104th street, all of which, we believe, is included in the contract of the firm in question.

Messrs. Hayes Brothers are well known in connection with high-class, difficult and heavy construction work in all sections of the country, where they have been largely identified with important railroad, municipal and other improvements.

The headquarters of Messrs. Hayes

Brothers company are at Janesville, Wis., where they have been located for many years past. The members of the concern are Messrs. Michael and D. W. Hayes, both of whom are thoroughly practical men and fully experienced in all branches of the business.

They have just finished seven years of work on the Chicago Drainage Canal, in connection with which they built three sections and two of the most important bridges, comprising a total of about three millions of dollars' worth of work. They have been for a period of about twenty-five years past identified with railroad and government work of a difficult and important character.

Some idea of the importance of their operations may be gained when it is stated that their plant which includes the latest and most expeditious steam driven machinery, comprising steam shovels, drills, derricks, etc., is valued at \$150,000.

It is safe to say that no obstacle will be met with in Messrs. Hayes Brothers section of the tunnel work which they have not met and successfully overcome in previous operations. The firm are warmly endorsed by leading financial institutions, railroads and other large corporations throughout the country, for their integrity, skill and general reliability in every respect.

Judging from the experience and high standing of the Hayes Brothers Company it is safe to predict that their work on the subway will be done with promptness and accuracy, and to the complete satisfaction of all concerned.

Stories of the Badger State.

The history of Wisconsin is replete with striking and interesting events with which few persons are familiar. Reuben G. Thwaites, in his "Stories of the Badger State," which has just come from the press, has given to us, within modern compass, a series of stories of genuine history, and which are told in a light tripping manner that will interest the school children as well as those of maturer years. In this new book the many picturesque events and epochs of the state since its first discovery are presented, so that the student of local history finds his present interest in town, village, city or state, growing with his knowledge of its past. These recitals surely will cultivate civic patriotism among the youth of the commonwealth, and reproduce the atmosphere and feeling of the early times. They give the reader a more vivid picture of pioneer life than volumes of ordinary narrative could do. It is published by the American Book Co., 521 Wabash Ave., Chicago, Ill.

The firm have had more than their share of trouble of late and Judge Dunwiddie has appointed Officer Sam Brown receiver in order that the present partnership may be dissolved. The firm of Cohn & Block have been conducting a store and junk place at 112 West Milwaukee street. They sold a cheap line of dry goods and made the purchase of hides, wool, rags and iron. Mr. Cohn now alleges that his partner, Mr. Block, has taken more than his share of the stock and that sometime during the early hours of last Thursday morning, about \$350. worth of wool, merchandise, rubber and metal disappeared from the store. The interested parties are still in the city and Officer Brown is in charge of the store.

## ATHLETIC PARK OWNED BY FIFTEEN

### Transfer Was Recorded Yesterday—Series of Good Games Will Prevail During Summer.

At the register of deeds office yesterday the transfer of athletic park was placed on file. By the transfer it appears that fifteen prominent residents of Janesville are now the sole owners of the only base ball grounds in the Bower City. The transfer reads from William Campbell and wife to F. E. Lewis acting trustee for the following men who are now equal owners in the park:

William McVicar, H. J. Cunningham, J. C. Kline, Edward Ruger, W. H. Blair,

## THE SILK COAT.

It is the Very Latest Thing and Promises to become Popular.

The newest gown is the silk coat. This is made of black taffeta or some other black silk, but the preference is for the light weight taffeta, and the crisp surface of that silk is really very stylish and fetching. There are several styles of making these, some preferring the short Eton and others liking the short box coat and still others having a preference for the half long sack coat. This is susceptible of so many different ways of trimming that many ladies like it, as they can have any kind of ornamentation put upon it, and, besides, the shape can be modified to suit each one.

The model style of this kind of coat is made of black corded silk, and the shape is that of a three-quarter sack. It is lined with a soft silk having very little weight. Around the bottom and on the sleeves there is a very rich pattern of silk embroidery. Just a few beads are sewed along the lines of embroidery, enough to brighten up the whole. Around the neck there is a full ruff of lace and crepe lisse, and at the neck there is a bow of black ribbon with fringe ends.

The shape can readily be understood by a glance at the illustration. In this instance the coat is worn over a dress of the new black woolen stuff. This has a silk warp, and the figures are all as black as the proverbial crow, but the way it is woven makes it seem to have a dozen shades of gray and black where it is all one shade in the proper light. There are three fan shaped insets on the skirt which allow it to flare gracefully.

However much one may want to forget the skirt waists, it is impossible, as every day sees some new fancy never before shown, and it becomes a duty to tell all there is to say about them. The newest ones are marked by simplicity and are scarcely more than the old French waists drawn down the least little bit to form the beginning of a pouch which is never finished and has just a little fullness in the front.

The neck is finished with a soft band, and this can be turned down and a lace tie worn over it, and this gives one many chances to make changes.

The pure white shirt waist made of nainsook and kindred stuffs is a favorite, and in fact so are all the thin ones, and no one could tell all about them. But this one may say—the white waists have driven the wonderful rumchunda waists out of fashion, for there are seldom any new handkerchief waists to

even have I seen a madras waist worn with a fine tailor broadcloth suit.

Almost every one is now planning to go away somewhere, if only for a short trip, and that makes a traveling gown a necessity. Now, the present fashion of doing pretty much as you please makes the choosing of an outfit an easy matter, since the short skirt has become such an important factor in our present century. All women now know that the short skirt is proper to wear any time when there is anything like sport going on. It is suitable for golf and wheeling and also for long constitutional walks. The always well liked Norfolk jacket is just now considered the most stylish of the jackets particularly adapted for outdoor wear.

The new shoes are made with wide soles which extend beyond the uppers, and they have an appearance by no means inviting, only as they may be thought comfortable. They are shorter and heavier than they were and have round toes—that is, the most of them have, but there are a few who think the pointed toes look more dressy. The Oxfords and the Newport ties are shorter than before for a generation, and they are wider and, let us hope, more comfortable.

—HENRIETTE ROTSEAU.

## Princess Arlbert Is Here.

New York, June 2.—Traveling incognito the Princess Arlbert of Anhalt, eldest daughter of the Princess Christian and granddaughter of Queen Victoria, arrived in New York on the Majestic on Wednesday evening. It is the first visit the princess has made to America.

## The Elephant's Revenge.

An extraordinary incident occurred at the Jardin des Plantes. The elephant-house adjoins that in which the camels are located, and a young camel recently introduced had great attention lavished on him to the neglect of a big elephant, which had hitherto had most of the public favor in that quarter. The elephant grew more jealous day after day, and matters came to a climax when, failing to attract the attention of a dainty little maid, who was caressing his young rival, the elephant filled his trunk with water and deluged the offending damsel from head to foot.

## Wharton Barker Accepts.

Philadelphia, Pa., June 2.—Wharton Barker, who was nominated for president of the United States by the conservative wing of the people's party at Cincinnati, Ohio, May 10, has sent his letter of acceptance to the committee of notification. Mr. Barker declares, first of all, for direct legislation or for the initiative and referendum. He opposes the concentration of wealth, which, he says, divides the people into a "house of have and a house of want." The money question and the railroad question, he says, are the two great questions to be settled.

## Fights a Bulldog on a \$2 Bet.

Port Huron, Mich., June 2.—The brutal spectacle of a man fighting a bulldog was the sport indulged in here. The man made a bet of \$2 that he could whip the bulldog, and the money was put up. He stripped off his coat, and with no weapon but his teeth and arms went after the dog. He got the dog by the ear and shook him around the yard and with his elbows tried to keep the dog from biting him. The dog finally bit the man on the leg and chin. The man's name is said to be Fred Kamau, alias "Puggy Jack" Wilson.

## DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. Andy writes: "The first time I made Grain-O I did not like it, but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and beautiful table beverage for old and young. 1c and 2c.

## Flee to Avoid Carrying Guns.

Cincinnati, Ohio, June 2.—A party of sixty prominent St. Louis merchants, headed by a millionaire stock broker, have arrived in Cincinnati. They hastily left St. Louis to escape serving on the posse comitatus organized to deal with the street-car strike. They decided that it would be more pleasant to take a vacation than to carry a six-shooter and a carbine about the streets of St. Louis and become targets for the bricks and stones of mobs.

## Big Cleveland Mills Closed.

Cleveland, O., June 2.—Three of the big Cleveland mills of the American Steel and Wire company were shut down without any warning to the 1,000 men thrown out of employment. It is not known how long they will be closed, as the resident trust officials are reticent beyond saying business conditions impelled the shut-down and intimating that needed repairs caused the action.

## Syrup Trade Injured by Trusts.

Chicago, June 2.—Seventeen Chicago syrup manufacturing concerns and scores of syrup makers in other cities, representing hundreds of thousands of dollars invested capital, have seen their business almost destroyed as the result of a war of extermination started against them two months ago by the Glucose Sugar Refining company, known otherwise as the glucose trust.

## Becoming a Mother

Is an ordeal which all women approach with indescribable fear, for nothing can compare with the horrors of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom that cannot be shaken off. Thousands of women have found that the use of MOTHER'S FRIEND during pregnancy robs confinement of all pain and danger, and insures safety to mother and child. This scientific treatment is a godsend to all women at the time of their most critical ordeal. Not only does MOTHER'S FRIEND carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at \$1.00 per bottle. Send for free booklet to THE BRADFIELD REGULATOR CO., Atlanta, Georgia.

## Gloves for the Feet...

That is what you will say if you wear a Foster Shoe. They are the best made. We have talked with many ladies and find that no shoe is as popular as a Foster. You once wear a pair and you never again will be satisfied to wear anything else. Like everything else that is the best it is the cheapest in the end. It will wear longer; it is always a perfect fit; it is a leader in style. We have just added to the line a new hand channel sole which is as flexible as a turn, and in weight, just between a welt and turn. It has the upper stock the same as in higher priced grades and made on the same lasts, but by this new process of

hand channeling the sole, we buy it so that we can now sell it at

**\$3.50.**

Just think of a Foster Shoe at that price. All widths carried in stock. We have a swell line of new summer Oxfords.
